GABRIEL DESCÔTEAUX

Email: gabriel.descoteaux@polymtl.ca Montreal, Quebec, Canada (514) 404-5254

Portfolio: gadese.github.io

Relevant information	
 Knowledge in controls, artificial intelligence, computer vision, robotics, deep learning, ROS, etc. Fluent in French and English, and eager to learn and face new challenges Demonstrated excellent organizational, teamwork and project management skills as project leader 	
Education	
M.Sc. in Mechanical Engineering – Robotics and Mechatronics systems GPA: 4.00/4.00	2018-Today
Thesis: Autonomous feeding-assistance system for people with upper body disabilities Research Group in Design, Machine Learning and Optimization for Mechatronic Systems, Polytechnique Montréal	
Recipient of the prestigious and competitive FRQNT research grant for M.Sc. students Recipient of the JA DeSève award by Polytechnique Montreal Recipient of the prestigious and competitive NSERC research grant for M.Sc. students	2019 2019 2018
B.Sc. in Electrical Engineering GPA: 3.84/4.00	2015-2018
Polytechnique Montréal – Montréal, Quebec Recipient of the CMC Électronique award by Polytechnique Montreal Recipient of the Vedel award by Polytechnique Montreal Recipient of the Hatch Ltd. award by Polytechnique Montreal Additionnal classes: Coursera's Deep Learning Specialization, Udacity's Artificial Intelligence for Robotics	2017, 2018 2016 2015
Engineering Experience	
Intern – Software developer	2018
Analogic Canada	
Research intern in robotics	2015-2017
Research Group in Design, Machine Learning and Optimization for Mechatronic Systems, Polytechnique Montreal	
Recipient of the competitive NSERC Summer research grant for undergraduate research - Robust design project - Control – Facial recognition project	2016-2017 2017-2018 2015-2017
Research intern in biomedial imaging	2015
Laboratory of Optical Diagnoses and Imaging, École Polytechnique de Montréal Recipient of the competitive NSERC Summer research grant for undergraduate research	2013
Personal Projects / Student Groups	
Rubik's cube solving robot	2019
Wearable glove to measure forces within fingers for rock-climbers	2017-2018
Self-balancing robot	2017-2018
PolyProject (Engineering student club)	2014-2018
 Developed an interactive control system for a robotic hand using an innovative fiber optic sensory glove Treasurer Managed the group's finances. Upped the disposable income by over 4000\$ compared to the 	2016-2017
previous year by finding new sponsors and funding opportunities. • Director of Communications • Managed rescriptment of new members, publicity, social media and visibility for the group.	2015-2016

- Managed recruitment of new members, publicity, social media and visibility for the group
